

*“I cannot commend too highly the dedication of young people like you who are working, struggling, and praying to save unborn children and to provide crucial help to mothers with problem pregnancies.”*

**-Former President Ronald Reagan**

*did you know???*

Abortion takes the lives of 1.3 million babies each year.

A baby's heart starts beating as early as 18 days after fertilization and brainwaves can be detected as early as 40 days.

*starting a  
teens for life group...*

1. Reserve a room to meet in.
2. Put up posters advertising your meeting (time, date, location, etc.).
3. Contact area youth groups.
4. Plan a program (videos, refreshments, speaker).
5. Elect officers and plan your next meeting.
6. Have fun and educate your peers at the same time!

**we are the survivors**

*...abortion-on-demand is destroying a generation of Americans. We, as teens and young adults, are part of that generation. Our peers are being annihilated at the alarming rate of more than 3,600 per day.*

National Teens for Life is our generation's response to the abortion holocaust. More than 43 million members of our generation have been killed since the U.S. Supreme Court legalized abortion in 1973. They were our brothers, sisters, cousins, nieces and nephews. They could have been anyone and anything. They would have been our friends. It is in their memory that we work to put an end to abortion.

Since its beginning in 1985, NTL has worked to change the way America views life. We have grown to include members from all fifty states. Teens across the country are speaking in their schools and to youth groups. They are volunteering in crisis pregnancy centers, peer counseling, debating and helping adult right to life groups work to pass pro-life legislation.

Our annual convention is held during the summer months, in conjunction with the National Right to Life Convention. The convention offers a variety of workshops presented by both teens and adults and gives everyone a chance to meet and share with other teen leaders from around the country.

NTL is a vital and active organization, growing in numbers every day. Teens are America's future. And while it is true that we are tomorrow's leaders, we know that we are

making a difference today as well. We are having an impact on our world and future generations now! We

have caught the dream of returning to a truly humanitarian society where all life is respected and protected. With the enthusiasm and energy of our youth, we can do it. We are ready to take on the challenge of making our generation 100% pro-life!

Our parents' generation gave us *Roe v. Wade* and legalized abortion-on-demand. It is up to us to reverse our country's trend toward death and destruction. By working together we can, *and will* restore a basic respect for life in America, as well as the world.

***We are the abortion generation.***

***We are the survivors of Roe v. Wade.***

***We are fighting to save our peers.***

***And we will not give up until we win.***
